Andro-Mod » Games » Mod » Bricks Breaker Quest (MOD, Unlimited Money) Bricks Breaker Quest – a modern arkanoid that offers to break colored blocks that appear on the playing field using a special set of balls. The goal is to hold on until a couple of blocks remain on the screen, and there are not enough points on the account to enter the leaderboard. Despite the familiar ideas and mechanics behind Bricks Breaker Quest, the puzzle allows you to plunge into a trance thanks to meditative gameplay. Blocks appeared on the playing field, but the balls began to move around the screen, push off the walls, bring bonuses and explode with special effects. It's impossible to be distracted. And after the past level, there's only a desire to move on to the next.
