## Hide and seek 2019 movie cast

Since actors are, almost by definition, masters of disguise, one would think that dodging the paparazzi would be easy for them. But when you have a recognizable face, blending into the crowd can be impossible no matter how hard you pull down your baseball cap. After all, Hollywood paparazzi often collaborate in teams, keeping in touch with celebrity where is located via cell phone and text messages, with additional observations and rumors pouring in from paid informants and friends. Some celebrities, like Brad Pitt, are notoriously difficult to shoot. As a star who has been in the public eye for a long time, Pitt knows how to send decoys and derail the waiting paps. As mentioned earlier in the article, he and Angelina Jolie even sold photos of their daughter Shiloh instead of having to face the paparazzi stalking the baby. Speaking to Terry Gross on Fresh Air, Pitt once described his family's exit strategy as an impossible mission with decoys [source: NPR]. Catherine Zeta-Jones and Michael Douglas have perhaps taken the most famous and extreme set of measures to keep paparazzi out of the picture at their wedding in 2000: Caterers, helpers, suppliers and all the other sellers associated with marriage signed confidentiality agreements (even those who didn't have the job). No wedding guests were given the time or place of the wedding until the last minute. On the eve of the wedding, special tickets were delivered by hand or mail to guests. Each note had an invisible ink code next to a special design, which the couple personally authenticated. Once admitted to the wedding, the guests exchanged tickets for a gold guest pin designed by Jones and Douglas. Cameras were not allowed inside the event. All wedding rooms have been scanned several times for hidden audio or video recording devices. Three private security guards patrolled the corridors at all times. Douglas and Zeta-Jones have entered into a publishing contract with OK! magazine to print selected photos. Although the couple paid \$66,000 for this elaborate security detail, paparazzo Rupert Thorpe managed to infiltrate the wedding and instant shots of the bride and groom he later sold to the Hello tabloids! and The Sun. The Hollywood couple later won a monetary settlement for the offense, however. If the paparazzi are able to get away with encroaching on the daily lives of celebrities, when the right to privacy kick in? Image: United Artists The Western genre has helped propel many great players to the when they wore these hats and boots, then rode their horses to sunset, until their director shouted Cut! Remember those celebrities? Since the Western film genre is as old as Hollywood cinema itself, many actors of the silent film era appeared in the westerns of the time. Film historians identify William S. Hart as the first Western film hero who what we now know of the typical protagonists of Western cinema: a man of integrity who fights when needed, and is honorable in his intentions and action. His 1925 silent film Tumbleweeds began everything, and paved the way for future Western film heroes to develop and evolve from this archetype of character. As the Western film genre prospered, so did the variety of Western film heroes. The concept of the anti-hero came to be, with outlaws becoming the main protagonists of Western films. They may not have the honor and integrity of the typical Western hero, but these figures have given the Western character a more nuanced context. They have now appeared more human, and less of a perfect hero. In the process, they also became relatable to the public. So far, the western as a genre is still being revised and reformed. But the big stars always want to play it, because they see it as a good opportunity to contribute to the Western genre.
