Give me supreme feedback Duelist Stickman 2.1.3 Update New Gun Card Updatebug Fixed It's more, over all, GREAT GAMES!!! I always wanted this game but I used apple devices so I couldn't find it. But thank you for adding it to Apple, even if you can't hardly earn anything it's a big partying game. None of app purchases that are fine, I rarely pay in app purchases, so yes. I always love to play this game with friends. I have some feedback though. Add more weapons, hats, maps, and a few other things. If it's possible to add an online mode, and have game mode such as taking the flag, match to death, free for everyone, and last man (or team) stand. And I think you should work on the Goku hat some more, at least just add the hair and not the face.E maybe Vegeta's hair too. Oh yes, and you know the ultimate paint-brush, where you can sway your enemy around, make it that the guy being balanced takes damage from hitting things while you sway him. And you can add dots, only so that if you want to do a point battle. It's ultimate will be you just pudgy rapidly. Well that's all I have to say. Keep working the good! Edited: I also think there should be duels nunchucks and its abilities are it constantly turning. And there should have to stand arrow and his ability is to citation Star Platinum if he is to play 1, the world if plays 2. And there should be a local 4 player multiplayer mode.
