From a Finder window or desktop, locate the image file that you want to use. Right-click (or right-click) the file, and then click Set Desktop Image on the shortcut menu. If you use multiple displays, only the background of your main display changes. If you don't see Set Desktop Picture on the shortcut menu, a submenu named Services should appear on the shortcut menu. Choose Set Desktop Image from There. Windows 10 Go to Start screen. Type background, and then on the menu, click Background Settings. A thumbnail image appears in the background settings.
