## Megan thee stallion height weight

Megan Thee Stallion has often shared how she juggles being a famous rapper and a college student. Rapper Savage talks to his audience about several essential things in his life. The 25-year-old shows her multiple dogs on social media and also talks about her love of anime. Megan Thee Stallion Frazer Harrison/Getty Images for EA Sports Bowl at Bud Light Super Bowl Music Fest Although Megan is transparent about her life out of music, her fans might wonder if Megan received her college degree at her Texas university yet. Megan's college and major Thee Stallion Before she catapulted herself to fame with songs such as Big Ole Freak, Cash Sh\*t and Hot Girl Summer, Megan attended classes at Prairie A&M University in her hometown of Houston, Texas. Megan went to Prairie to study health care management, but was still following her rap career when she didn't physically go to school. RELATED: Megan fans Thee Stallion criticize her former best friend Kelsey Nicole for showing 'Loyalty' to Carl Crawford In a 2018 interview with Billboard, Megan opened up about how Megan managed the job and set a name for herself in the rap industry. Megan admitted that he faced some challenges along the way and often looked at other students who knew about his career in search of help. I'm still at school, and at first, I'm not going to lie, it was a little easy because I wasn't that secretive, Megan shared. I just have to go to school two days a week, but I'm there all day. But now that I have something to do almost every day, it's quite difficult. So I'm doing the best I can. I'm trying to tell my teammates, 'Look, send me my homework. After Megan's career soared in 2019, he admitted on Instagram that he faced challenges of doing his job and juggling his many performances. Megan made a fuss on Twitter after she revealed Megan had a GPA 2.7 during a semester of being a star and a part-time student at the University of South Texas. RELATED: Are Megan Thee Stallion and Jordyn Woods still friends? In June 2020, Megan shared with People who are still working for their college degree. Megan told the exit that once she has completed her courses and is ready to graduate, she plans to have a massive graduation party to celebrate. The WAP interpreter also said her late mother, Holly Thomas, and grandmother play an important role in her reason for staying in school despite her enormous accomplishments. I want to get my degree because I really want my mom to be proud, Megan said. She saw me go to school before she died. I want my big mom to be proud. He saw me go to the before he died. My grandmother who's still alive used to be a teacher, so she's on my ass about to finish school. I'm doing it for myself, but I'm also doing it. The women in my family who made me who I am today. Megan Thee Stallion attributes seeing independent people in her family for her current work ethic Megan shared that while many artists her caliber would give up her college education for fame, Megan is passionate about earning her college degree. In addition to getting his health care management degree, Megan said she plans to open several assisted living homes in Houston. Megan said she also wants to hire her classmates to work at home while working on her music after graduation. RELATED: Did Megan Thee Stallion ever make a dababy appointment? Megan told People that watching his family work hard growing up created the work ethic he has today. Megan said his mother and grandmother provided him every day, and they never showed Megan when they went through difficult times. I've always seen everyone in my life be independent, Megan recalled. My dad passed away when I was 15, so my mom was still tough taking care of us. If we were going through money problems, my mother and two [maternal] grandmothers always made sure I didn't know. We could have been fighting, but they made it work. I've always seen strong women making it work, so I've always wanted to have the same impulse as the women in my family. I know I have a lot of my strength from my mother and my two grandmothers. Megan Thee Stallion's career is on fire! Houston's bred rapper is topped the charts with his singles Big Ole Freak and Hot Girl. But unlike many of her rapper companions who have been the product of unprotected origins, Megan comes from a solid background, with her mother turned manager Holly Thomas as her inspiration. Thomas encouraged his daughter to pursue an education, which Megan continues as his rap career increases. However, Megan inherited more than a passion for his mother's education. They both share a love of hip hop. Megan Thee Stallion Lil Weezyana 2019 Erika Goldring/Getty

Images Not every day a rapper and her mother share the same talent. Megan's first introduction to the rap world was to grow up and see her mother, who went through the stage name "Holly-Wood". In an interview with VIBE magazine, Megan reflected on how to get an intensive rap course from her mother. A young Megan often accompanied her mother to the study sessions. Inspired by her mother's work, she began secretly writing her own raps before revealing her talent to her mother. They soon began working on their careers together and, when Megan's career took off, Thomas was by his side. Megan even asked her mother to act with her from time to time. Sometimes, when we're in the studio, I get excited it's like, 'Megan, I'm about to get into the cockpit and go out with another mixtape,' he explained. I think it's going to happen because we hit our heads, and certainly hit heads trying to write together. But before Megan became the star she is, it was her mother who demanded that the school come before rap. Megan Thee Stallion works for her college degree Thomas supported Megan's passion for music from the start, but made sure her daughter knew she needed a formal education to have something to relapse on. So he insisted that Megan disapprove of pursuing his rap dreams until he turned 21. Once Megan was officially legal, he had all of his mother's support in the form of a manager. Although Megan had full support from her mother to pursue music, the now 24-year-old megastar continued her studies. Keeping her promise to her mother, Megan is enrolled in the health administration program at the University of South Texas. She admits that it has not been easy to balance life as one of the most popular rappers and a college student. Megan told Billboard magazine in 2018: I'm still in school and at first, I'm not going to lie, it was a little easy, because it wasn't that secretive, he said. I just have to go to school two days a week, but I'm there all day. But now that I have something to do almost every day, it's quite difficult. So I'm doing the best I can. I'm trying to tell my teammates: Look, send me my homework! While Megan does not plan to use her degree to become a nurse as most would within the health administration trade. She plans to use it to open assisted living facilities in her hometown of Houston after graduation. Once I started being very popular with my music, I knew I probably wasn't going to go to medical school, he explained. And then the blood makes me a little apprehensive, so I was like, I don't want to touch anyone. But I want to run the hospital. I don't want to do the dirty work, but I definitely want to put it there for people to come and help others. Megan Thee Stallion continues to make her mother proud of Megan's mother, Thomas, Sadly, who died tragically in March 2019 before seeing her daughter fulfill everything she promised. In a poignant Instagram post, Megan announced her mother's death with a photo back from both of us and a heartfelt title. The best mom in the world, reflect. The strongest woman on the planet. I can't even put together full sentences rn RIP mama. Megan later revealed that her mother passed after succumbing to a cancerous brain tumor she had been dealing with for some time in the comments of her Instagram posts. Megan allows her mother's legacy to be the driving force in her success. Megan Thee Stallion has not famous for a long time, but is already one of the hottest rappers in the area. Known for its light-hearted lyrics and Southern swagger, the self-tested H-Town Hottie has amassed a fan base, millions of music streams, and a lot of cash. Even if it looks like she showed up overnight, she's been grinding for years. Read on to learn more about this star, from career highlights to his net worth. Megan Thee Stallion speaking on stage at an event in August 2019 John Sciulli/Getty Images for the early years of Beautycon Megan Thee Stallion Megan Thee Stallion was born Megan on February 15, 1995. Her mother was a rapper and used to take her to studio sessions, establishing her love of music at an early age. As a teenager, Megan Thee Stallion began rapping. She developed her stage name from a nickname her peers called her because of her height and curved body. He eventually began performing around his native Houston, Texas before one of his freestyles went viral in 2013. Megan Thee Stallion's career drawing on the attention of his freestyle, Megan Thee Stallion began working on mixtapes. He released his first one in 2016 and continued to launch one each year he followed. Finally, Meg received national attention in late 2018/early 2019 when her song Big Ole Freak, which appears on her EP Tina Snow, took off. The song rose to No. 65 on the Billboard Hot 100 before it stoned. It continued with the May 2019 album Fever, which spawned hits such as the ever-popular song Cash Sh\*t with North Carolina rapper DaBaby. The album was favored by fans and critics alike, with some calling it their best work. To date, it is your most recent long-term project. When Meg isn't working on music, she's focusing on her studies. She takes classes online at the University of South Texas, seeking a degree in health management. Rapper Hot Girl Summer has said in interviews that one day she hopes to open assisted living centers in her hometown. Explaining her decision to stay in school despite her new success, Meg told HollywoodLife in 2019: My grandmother was a teacher, and I started when my mom was alive and I feel like I could definitely see her through. But it'mi.la school and my music were, like I said, both of my Plan Ace. So I have to see it through. His mother, Holly Thomas, died in March 2019 of brain cancer. What is the net worth of Megan Thee Stallion? At the time of this letter, the exact net worth of Megan Thee Stallion is unclear. But PopBuzz estimates it's between \$500,000 and \$2.7 million. And with a number of upcoming projects, we expect to see those numbers swell up in the future. In the meantime, keep an eye out for their next release, the album Suga, which could arrive on May 2.
