Some other business games you can try: Idle Theme Park Tycoon, Idle Miner Tycoon. Some tips and tricks Quis are some tips to help you easier with Factory Inc: Effective machinery operation: This helps produce large quantities of products while ensuring high quality. Remember to upgrade and repair machinery to avoid production interruptions. Buy new machines to diversify and unlock products. Hiring managers: For the large number of automated machines and production lines, it's hard to do it yourself. So hire managers with different qualifications to help you. Then just focus on making money. Use boosters: The Money Booster and Speed Booster icons are in the corner of the screen. They will help you double profits and reduce production time. However, to activate it, you need to see an ad of about 15-30 seconds. Order Priority: You will see orders on the left side of the screen. These are products that require high quality and quantity and at a specific time. Therefore, complete those products first. Get free money: There are drones that seem to bring you some money. Click on it to receive money. Achievement Collection The achievement collection is the task you must complete in Factory Inc to receive the rewards. There are many rewards, but between diamonds are the most valuable. This is a high-end coin and can only be won on leaderboards. With them, you can buy high-end machines and unlock expensive products. In addition, you can also participate in an interesting special event, Touch Touch Challenge Gold, get the money. This is an extremely difficult challenge. You must earn a certain amount of money in the time this game requires. This mode requires everything you have, such as machinery, employees, ... to operate at full capacity. In return, you'll receive valuable medals. Build your factory Once you make a lot of money, you can expand your business and build a bigger factory. An interesting thing in Factory Inc, to climb the factory you have to sell the factory! It sounds ridiculous, but it's true. It's not hard to start over with a new factory once you get used to it. Also, when you sell the factory, you'll receive a multiplier to help improve everything. Therefore, in a short time, it will build a large factory many times stronger.
