The app is quite an exciting and bright strategy in which the user is given the opportunity to repeat the different battles that really happened in history. It's only important that your mobile device supports the Android version no lower than 3.2. Description of the game You will have a great opportunity to become commander-in-chief of one of the largest countries in the world, which you can choose from 50 presented. This way you can change the course of history, as well as win those battles that have been lost in the real world. You will immediately be able to play at 3 campaigns that offer battles that take place at different intervals. And, unlike these projects, in this game the main focus is on diplomacy. Much of the time you need to complete their military forces, as well as prepare troops. The most important unit of the struggle will be considered generals, as they motivate and control other units. This means that the generals sometimes determine the outcome of the battle. Game features provides an unusual combat system so you can develop new maneuvers with which you can destroy and demoralize enemy forces. Naturally, the number of armies of the player and the enemy will be of great importance. You can then download the hacked version of World Conqueror 2 for free on Android.
