Choose a color to find the power of ColorLogic ENERGYSAVINGS LOWVOLTAGE PERFORMANCE BRIGHTNESS LED Lights *Based on metered test data for collections and spas at print. ENERGYSAVINGS Universal ColorLogic Pool &amp; Spa Lights saves up to 86% on energy costs. Lowvoltage ColorLogic Pool, Spa &amp; Backyard Lights are low voltage and ul listed for safe wall and floor installation. PERFORMANCE ColorLogic Pool, Spa &amp; Backyard Lights last 10 times longer than incandescent lamps. Discover how Hayward's ColorLogic Pool, Spa, and Backyard LED Lights can turn your backyard into the perfect place for any occasion. Search for Hayward dealers near you today. Find a Dealer Visit the help section or contact us. This kit allows you to upgrade your existing Hayward Astrolite Pool lights to color LEDs. The front of your gear should look like one of the two images below. They come in two styles, solid chrome or white thermoplastic. If it looks like that and is about 11 inches in diameter including rims, then this is the kit you need. There are several options available. First, you have to determine if your light is 12VAC or 120VAC. Both look exactly the same, the only difference is the bulb inside which also looks the same. Some counties in the U.S. require 12VAC pool lighting under the law, most don't, but you can have it too. Use the above option to choose the right voltage. Using an incorrect voltage will destroy the bulb. The second option is wattage, see the description below: This kit allows you to upgrade your outgoing billiard lights to color LEDs. No need to drain your pool or spa and no need to buy a whole new lighting system. Using advanced LED technology this kit will allow you to breathe new life and greater appreciation for the investment you have made on a fraction of the cost of installing new color LED fixtures It will literally change the way your backyard looks at night and is literally as easy as changing a light bulb This kit consists of the following : 1 - 16 Color LED Bulb 1 - Lens Gasket 1 - Screw Pilot Brass with chewing gum washer Suitable for all standard pool nichesDeor New Direct Replacement Underwater Pool Enhancement Kit At 12 or 120 Volt AC18 Watts or 35 WattsWe use Pool Tone @ Color LED Lights are 75 - 300% brighter than OEM Version 18 Watt We have 244 smd individual led RGB on board Version 35 Watt we have 488 smd individual led RGB on board Depending on the size of your pool and the number of lights in your pool, you may or may not notice the difference between the two As a general rule of thumb, we recommend that if your pool is more than 12,000 gallons or larger than about 10 X 30 Feet, go with a higher wattage version. If your set is around the dimensions listed above or smaller, save your money because you probably won't notice much difference. Our 18W version will be saturated swimming pool with color, and only on larger pools do you see the difference in the furthest part of where the light is installed. Our 18W version is about 75% brighter than comparable intelligibrite light. This bulb has 16 color options 7 Solid colors - 9 Color show Neutral White, Red, Light Blue, Dark Blue, Green, Cyan and Purple Color show including: Single Color Fade Smooth Color Transition, Medium Color Change, and Quick Color Change Lights are controlled by the light switch, no separate controller is required To advance the light you just turn off / turn on in 8 seconds to advance to the next color option The lamp has a memory function so that when turned off more than 8 seconds they will remember the last setting when revived on Free Shipping in the US via FedEx Ground or USPS depending on your location Bulbs covered by 1 year warranty [{ catentry_id : 1025972, Attributes : { Product Line_Expert Line:1, Light Control_Networked :2 , Cord Length_30'':3 , Light Color_Color Lights:4 ,
