Deal with it. -George Carlin Imagine and I were sitting in your local coffee shop... (or on the patio, with Bally the dog at our feet - because he would go crazy if I left him outside)... talk about your lack of motivation. What I would do is give you my 5 most powerful &mp; inspiring quotes to inspire you to take action. So even if you sat there in your favorite chair, and told me, between sips of your piping hot green tea, that you're really struggling, here's what I'd say to you (digging deep into my vault of favorite quotes)... 1) I would start by reminding you. To do something you've never had, you need to do something you've never done According to the TT Survey, 48.1% of TT readers want to lose the last 10 pounds. Another 32.5% want to lose 10-25 pounds. And with Joe's program, he's going to show you how to do that for the summer. Yes, you'll have surprising dietary methods that you've never used before, but you'll also get results that you were never able to get before. 2) Then I would be very serious and I would say to you ... Emotion leads to movement, and I would follow that by quoting speaker Larry Winget saying, You won't change until you first feel uncomfortable with where or who you are. I would sink in if you thought deep down for your powerful reason for wanting to change, and for wanting to reach your peak potential. And whether it's the fear of being embarrassed (again) on the beach this summer, or the desire to regain your partner's sexual desire, or just to increase your self-confidence &mp; energy, we all have a powerful emotion in us that drives us to take action with our health &mp; fitness. I encourage you to find the emotion that leads to your motion. 3) So I'd probably give you a few seconds to think about that, and enjoy your tea. And then I'd say, you know, a great guy named Frank McKinney once wrote... To live an extraordinary life, you have to resist an ordinary approach. Because now I'm trying to open your eyes to what you're willing to step outside your comfort zone. You know you're not happy with your results if you stick to cardio and a politically correct diet from a magazine you read while doing that cardio. Those are ordinary approaches. And you know what ordinary results are, right? Just look around at all the people using these programs and the cardio machines. That's not what you want. You deserve better, and yes, that means going out comfort zone. 4) Then if we started to wrap up, I'd say... Don't be one of those people who waits for the 'time to be good' (i.e. until it's too late) to take action on your goals. If there's something you really want to do - if there's Dream body you want to achieve - then find a way to do it now! And there is no better time than now... so close to summer ... and with the most complete plan ever... Now it's time! 5) Then finally, before we got up to go, I'd give you one last gentle reminder to think about... And yes, you could call me cheesy to say this, but deep down you'd know I'm right when I say, TODAY is the first day of the rest of your life. So don't dwell on past mistakes, that won't get you anywhere. Instead, focus on what you and will do today, tomorrow, and the rest of your life, and all of the great things that will happen as a result of your actions. Taking action will work for you, and it must, because the year 2010 has already disappeared by more than 33%. It's crazy, isn't it? Can you believe it passed so quickly? Summer is here... And are you going to be happy with your summer beach body? It's time to look at your goals, be honest with your progress, adjust your course and give it again. If you want things to change, you have to take action and change them. There's no better day to start than today. I can't wait to hear about your results. More inspiration to come, Craig Ballantyne, CSCS, MS PS - Another one before I go... and this is one of my favorites from the legend, George Foreman: You do more; You're better than that. You dare to dream even bigger... aim higher, do more, be more, earn more and move on. If no one else believes you do it, I believe you have it, I believe you have it, I believe you have it. But whatever you do, commit with all your heart &mp; don't stop until you're where you want to go. And I'm there with George. I believe in you so much. I know it's hard to get that feeling through to you just by writing a blog post (it would be a lot easier if we were sitting around with a green tea), but I've seen so many people succeed – so many people just like you – that I know you do it too!
