They offer quite a lot of content: action, random and arcade. In particular, some games have contributed significantly to their success today: Space Shooter, Galaxy Attack, Kawaii Home Design, Strike Force, Infinity Shooting, Galaxy War, Galaxy Attack: Alien Shooter and Game Other Players Promise to Be More Popular. Stick Z Bow. Maybe, in your spare time, you should look for light games to entertain even better. Stick Z Bow is a good choice to replace loud and violent shooting games. In addition, an interesting script was built, rotating around the characters of the famous Dragon Ball Z comic. Let's find out together! Plot universe 7 (Earth) is where Son Goku and his friends have their journey to find dragon balls. They came to strange lands by mistake and didn't know the dangers of lurking around until they discovered there were many strange creatures who were able to change shape and pose as a human friend. They had led to the labyrinth and separated the magic of these strangers. Now, each of them Find a way to escape the labyrinth, and at the same time feel the subtle people who meet along the way are real friends or not. Gameplay Stick Z Bow gameplay is also quite simple when a player becomes sagittarius and control his character to explore the maze to find a way out. Along the way, players meet many of their friend's fake guys and need to destroy them. With sliding action on the screen, the character makes a move left, right or jump steps. To take pictures of arrows, the player must also slide up the screen and drag them in different directions to take pictures. However, in order to shoot targets far away, it is necessary to slip longer to increase firing force, and closer to the distances, it requires enough force to hit the target. Enemies also retaliate against shooting poisoned arrows, so the player must have the ability to accurately aim, and at the same time have a quick firing speed to prevent the enemy from being able to counterattack. In general, being able to pass the level or not depends largely on skills. Keep practicing to improve your goal skills, because the higher level of the enemy is smarter and very crowded. A little hint that you know that if you attack at the head of a translator, they'll die with only one arrow. Therefore, if the attack velocity is not high, then aim their head to destroy faster. Characters throughout are you a fan of Son Goku? or god death beerus of the same universe ?? Stick Z Bow allows you to role-play these characters in a collection of over 30 unique characters. In the Shop feature, select hero category and here you will find: Son Goku, Beerus Sama, Android 17, Android 18, Vegeta, Satan, Radditz, Nappa, Bardock, Evil Buu and friends of others. Each of them also has a proposed attribute system: Attack Powers, Defense Powers and Health Point. Initially, the attributes of this attribute may be different, but players can also make maximum upgrades to level 10 so they can best use their abilities in battles. Archery In this game, the bow is the only weapon that can be used and the system also has a unique bow collection for players to experience. They are designed in an eye-catching shape and are made of various materials, be it metal, stones or diamonds. Therefore, their strength and abilities are also different. Some types can fire arrows, others can fire 3 arrows at the same time, some can shoot poisoned arrows and cause enemies to lose blood until they die. However, they are not available and players must use the money to buy or watch some ads open. Special skill in addition to good fighting skills, sometimes it is difficult to pass the level. The reason is that because a player has to fight many enemies, the health score is almost exhausted, or the boss's defense is higher than he can not Him. At that time, take advantage of special skills at the bottom of the screen, including recovering health points, increasing the damage 3 times with weapons, increasing defensive stats, and x3 arrows. Of course, these skills are only temporary and disappear after a while. However, in urgent circumstances, their support becomes very meaningful.
