That's the special part of the year! Put on your party dress, dance in the festive cabin, and add some holiday charm to your photos! I like this game very much, but the problem is that the ads keep popping up is still really annoying, so please fix it . If I would not pop up would give this game 5 stars, but I still like this game and Angela is very cute. I do not recommend this application for garbage, because a lot of ppl says that there is a guy sitting on a chair in the eyes angelinas and actually I thought it was just me, I realized it in 2018, but now it is 2021 I saw reviews and now I knew it's not just me, so I do not recommend this garbage game, it's hacked is to spy on you and all and as soon as I got the call and answered I did not know that I did not know who is the phone number that is for and then I replied that it was Angelina said: HEY LETS PLAG I am so scared and deleted this game if there was zero stars which is what I would give because it is a trash game I do not recommend it and I bet no one recommends this basket just throw in the trash because it belongs there! I had a sleepover with 3 friends I saw this app and thought it was cute... but then it started that at the same time I got a call to a random phone number.. Ofc I refused, and then I asked my friends if they knew the witch number they called they said no, then at the same time I got a text from that random number that called them said... If you don't answer, we'll find you and track you down,..... I was in shock. suddenly I heard screaming at my door! I checked that it was the developers, Outfit7 Limited, did not provide details about their privacy and data handling practices to Apple. For more information, see the developer's privacy policy. The developer will need to provide privacy details when submitting the next app update.
