We just wanted to quickly fix a few things that happened after the update. In particular, many users trying to sign in received a message account does not exist. Rest assured that all your accounts still exist. We just had a problem when the wrong error message appears, so, for example, if you incorrectly entered your password, you would still say that your account does not exist. This is already fixed, and now you get the right reason why you can't log in again. Secondly, please make sure that you and your friends have actually upgraded the game to 1.8.0 by checking the version number at the bottom left and also please log out and reconnect at least once after the upgrade. We will soon be familiar with you regarding your remaining feedback. Please keep it coming and enjoy your weekend!30. marraskuuta 2020 kello 11.53 - Liebe Cataner, wir haben gerade CATAN Universe 2.1.1 veröffentlicht.
