My rating was updated from 1 to 3 stars, the game used to crash on me during the tutorial but now works. Do you want to go to the game? The problem must be fixed, but in case anything goes wrong, you can always contact us at support@herocraft.com and identify the problem. I would gladly pay more extra in added game content. This is really something special in my opinion. Thanks for the appreciation enjoyed the game! It takes some time to get dealt with the controls, but then it becomes a great game. What is unforgivable is the collisions of the game constantly crash on the iPad Mini 4. You can save at any time, but often the game will just crash back immediately. This destroys the fun of the game. Avoid this title at all costs if you are using iPad.Update: The game still crashes within minutes of booting even after fixing all known patch errors. We are very sorry for this matter. Please contact us at support@herocraft.com, identify the name of the game and describe the problem in more detail. We will try to investigate the developer, HeroCraft Ltd. did not provide details about Apple's privacy and data handling practices. For more information, see the developer privacy policy. The developer will be asked to provide privacy details when submitting the next app update. The developer of the app site support privacy special promotional privacy policy!
