Paintball rifle pixel gun 3d

Welcome back to pixel gun 3d, my name is ECKOSOLDIER and I'll bring you a new gun review. This unusual sniper, the Paintball Rifle. I don't know how many shots you're going to have to hit to kill him, but the review wanted so here it is! Remember to hit that similar button in a new pixel gun episode. THIS IS THE WORST SNIPER IN THE GAME! PAINTBALL RIFLE! | Pixel Gun 3D is always great to see a little Paintball love video games. I'm not talking about paintball dedicated games like Greg Hasting's Tournament Paintball games and the like I'm talking about things like this that I spotted in the Pixel Gun 3D cool special Rare Paintball Rifle -:) What other video games have tipped their hats on Paintball over the years? I remember Lemmings Paintball. Do you have any more? Let's see how many we can name. Comments Share 250 Rare . 50 . 6 (for clans)4 (the Gallery) Not to be confused with the previous Block Crash weapon, the Paintball Rifle. The paintballs deal three types of damage: They hit hard and the paint doesn't wash off. And the third type is the most painful - try to explain to your mom how you got so dirty. - Weapon description in the gallery The Paintball Rifle is a Sniper weapon introduced in the 15.2.0 update. Description This is a colorful sniper rifle that shoots paintball projectiles. This is fair damage, a rapid rate of fire of 90, a low capacity of 9, and fair mobility of 65. Appearance This weapon appears to be a re-skin of the Poison Hunter (PG3D). It is a paintball rifle outfitting a 10x zoom scope, the magazine is white, and contains 9 paintballs arranged in a bullpup design. The barrel spray is painted blue, red and white. Power This weapon shoots paintball particles with instant bullet travel time and blue and red splash radius. Moreover, this weapon has a 10x zoom optical sight that allows the player to snitry down players in a long-term battle. When reloading, the player removes the clip from the top of the weapon and replaces it with another. No delay mechanics. Strategic tips for preserving ammo due to its low capacity and rapid firing rate, so aim carefully. It should be noted that the weapon does not deal with headshots due to being an area damage weapon. Try aiming for the soil/lower body area. Since it is easy to obtain gears that are inside small and medium clan crates, this makes it a cheap area-damage weapon for early-medium leveled players. This is a hard counter against low firewood sniper users. Use this against a group of players to score multiple hits/kills. Use the scope to attack users from medium/long distances. Like most area-damage snipers, it's effective for damaging enemies behind spreads, such as an object in front. It is also effective in counter-sniping other players. Counters Use Wallbreak Sniper as a Prototype attack against the user. use a primary primary primary with scope As you can easily hit your feet and leave you wounded and vulnerable. Try moving to medium range and finish off the user with a powerful heavy weapon like the Deadly Beat, Manga Gun, or Demolition Exoskeleton. Strafe around while jumping to minimize the damage from an approaching shot. Recommended Maps Sniper Forts Paradise Resort Equipment Set Changelog 15.2.0 Initial Release. 17.0.0 It is no longer available for clans system. Trivia Like the Poison Hunter, the weapon shares a huge resemblance to the Sydney Sleeper in Team Fortress 2. Similar to most area-damaging heavy weapons and Small Cthulhu, this weapon instantly kills you if you hit the foot of the enemy. However, this installer is only valid if they are in the middle of the resulting explosion radius. This is basically the reskinned version of Poison Hunter (PG3D), but with disappointing differences like non-headshot multiplier, minor damage and small area damage (while firing).
