We are passionate about bringing a beautifully designed product that is high quality, meaningful, and that truly creates joy. Puzzle Club is owned and operated by the Sock Club, based in Austin, Texas. Co-founders Noah Lee and Dane Jensen founded the Sock Club in 2012 as a way to share their love of socks with the world. As the first monthly socks subscription on the market, they started by sourcing new cool socks from another brand each month. By 2014, the Sock Club had designed every monthly design in-house, and made them in our mills in North Carolina. Our subscription has grown from a few loyal fans to a large subscriber base that we would like to call the Sock Club Family. Sock Club expanded our subscription with its own branded socks in 2016. This has allowed us to expand our design team and supply chain and get really good at acquiring and producing high quality rapid turnaround. The Sock Club was mentioned in The New York Times, Inc. Magazine, The Wall Street Journal, BuzzFeed, and the Huffington Post. When the COVID-19 pandemic hit, we, like the rest of the world, reflected on things that are important to us. The answer that we've come up with brings a truly unique experience to our Sock Club Family, whether it's custom socks or puzzle subscriptions. As a team, we also shared things that we got a new perspective on. The main takeaway was that simple things had renewed meaning. We want to get back to basics. Several team members began making puzzles as a way to pass the time, and connect with the family from the TV or their phones. We sent out a brief survey to our Sock Club family and were amazed by the amount of calls, texts and emails we received. We found a new way to create joy for our friends, family and customers, which is all we ever wanted to do. Selecting a selection results in the entire page being refreshed. Press SPACEBAR and then arrow keys to make the selection. Imagine feeling great when you find just the piece you need and clicks on the post. And satisfaction when you create the perfect picture, piece by piece. Ravensburger has been a joy to puzzle-lovers since 1891.
