Most of the to the top of the surface is gluten free. The price is reasonable and the pizza is very delicious. There also have great salads on the menu, many gluten-free. They have a bunch of craft soda, plus beer and wine. I'm very sensitive to gluten and there's no problem here. From the outside, the first time we visited, this may seem like a pizza shop, but it's not quite the same as other stores. When we go in, obviously it's not the run-of-the-mill. Gluten-free pizza is just the beginning. There are a variety of top layers and interesting combinations... and very tasty. They make really good salads on the spot. You can take wine, beer and other beverages out of the fridge for your meal. It's a very different feeling, and actually says 'California' loud and clear. Healthy and enjoyable food, whatever you order. On a number of occasions we ate in the restaurant. On others, we took our meal back to our room in the Wyndham resort in which the restaurant is They both work well. This is a good option if you feel like pizza, and it's not pizza like everyone else makes it. It is not a 'cheap eat' place, but it is a delicious and very enjoyable meal. We tend to visit at least once when we are on the oceanside, which means we will come back again. One more time. More
