

## 2011 Ford F550 Rescue Vehicle

### General Specifications

- Model: 2011 Ford F550 4x4
- Mileage: 42,614
- Diesel – 6.7 Power Stroke
- Configuration: 4-door crew cab
- Rear Compartment: Aluminum box
- Vehicle Type: Heavy-duty truck
- Drive Type: Likely dual rear wheels (DRW) for stability and load capacity

### History of Use

This vehicle served as a first response / rescue unit for the fire district. It was equipped to carry rescue tools, medical supplies, and other emergency response equipment. The aluminum box provided secure and weather-resistant storage for mission-critical gear.

### Current Condition

The truck remains structurally sound and mechanically capable. The aluminum box is intact and offers ample storage. Interior and exterior may show signs of wear consistent with emergency service use. Ideal for repurposing into a utility, service, or support vehicle.
