Find out moreFirst Chanel store was opened in 1910 in Paris on Cambon Street by young milliner Gabrielle Chanel (1883-1971), who picked up the nickname Coco while working as a club singer. The boutique caught the attention of the Parisian fashion elite, who popularized their crystal Chanel Modes hats. She soon added a sportswear store in the Normandy resort town of Deauville, where Coco set the tone for her defining sense of style - traditionally menswear reimagined for feminine shapes made from simple knitted fabric. Light and elegant, her designs promoted comfort and grace in female wear, which prevailed in the previous century with intricate layers of fabric and bulky corsets. She followed this success with a couture house opened in 1915 in Biarritz. Over the next six decades, Coco Chanel will be a key designer of both fashion casual and Parisian couture, as well as a 20th-century style icon and arbiter with her bob haircut and pearls. However, Chanel was not born into a life of glamour. After her mother died, her father left her in the orphanage where she lived until she was 18. It was there that she learned to sew, as well as appreciate the classic black-and-white pairing worn by the nuns. In 1926, she unveiled her first little black dress, recalling a color that was once reserved for mourners and working-class women. In the same decade, she debuted her perfume, Chanel No 5, as well as a Chanel suit with a blazer collar and a form-lined skirt inspired by boxed menswear lines and applies sports tweed. Chanel closed its fashion operations during World War II and then returned to the industry in 1954 to design the functional needs of modern women. The structure and wear resistance endured throughout Chanel's clothing and accessories, like a quipped 2.55 leather handbag unveiled in 1955 with her gold chain shoulder strap that freed the woman's arms. The 1957 two-ton sling pumps had a practical heel height, offering a bold statement in black tip shoes. After Coco Chanel died in 1971, the brand underwent several changes in leadership, including fashion designer Karl Lagerfeld, who took over as artistic director in 1983. For years, the company continued to innovate, such as expanding into ready-to-wear fashion in 1978 and, in 2002, setting up a subsidiary - Paraffection - dedicated to preserving the legacy skills of fashion craft workshops. The Chanel house still manages its flagship on Cambon Street in Paris, where it all began.
