## Etude house face mask review

With countless recommendations from celebrities, Instagram influencers, and digital publications, splurging on a new face mask should be an easy and fun thing — right? As any beauty obsession online shopper will tell you, it couldn't be further from the truth. When you have dozens of your favorite blogs curating the list of the best face masks on a weekly basis, narrowing down what one is actually worth buying can be a bit overwhelming (#firstworldproblems, I know). Listen to me out, though. When the majority of your waking hours are spent working, commuting, and sweating it out in the gym, you make sure every minute (and dollar) you want to spend on your skin care routine is well worth it. For many — myself included — that 10-minute self-care act is a sacred ritual: the sensation of calm, secluded, all-day built-up stress melting away as you massage your moisturizer from your tea area toward your temples. But we don't kid ourselves. We're doing this for results, too. The act of applying skin care products can be as attentive as, at the end of the day, to the motivating factor results we can see. So of course, we only want to use the best and most effective formulae. Especially when it comes to masks — the most important step for anyone looking to cool out eff and solve a specific skin issue at the same time. As someone who has used — and written about — hundreds of masks, I'm here to give you my peak, holy grail picks. And why should you trust me countless other beauty writers and editors, you might ask? Well, I don't really have a good answer to that, except that I made this list with a fatigued skin care junkie (me: you) in mind. If you're reading this, you can probably see through the BS article that claims every one of the 17 masks in this list will shrink your pores. No, it's just a collection of the best face masks I've ever tried — for every type of skin care anxiety. There's no gimmicky gold or bubbles, no irritating peel-off gels, and certainly not a single glowing communication formula in sight. Leaders Clinic AC Dressing Moisturizing Mask from AmazonThis Hero Product Leaders — a top skin care company from Korea — is among a cult sheet's mask connoisseurs to calm its seemingly miraculous formula that disturbs skin, fades acne scars, and provides a healthy dose of moisture. It's an excellent option for anyone looking to treat a particularly bad breakout (a friend with hormonal acne swears by it) and it also helps to soothe inflammation and redness. I've used this mask a bunch of time and I think it balances my oil T-field and clears any oncoming blemish. For \$15, you'll get 10 sheets, and each packet is filled with tons of extra serum, so it's a great value. Paula picks glowing renewal night Amazon! love this mask love It's one of the few skin I've used that really gives you bright skin like so many claims. Wear it to bed and prepare to arouse luster - in fact, because it perfectly presents the skin for makeup application, you are not tempted to wash it at all. Like all of Paula's choice products, it's safe for all skin types including fragrance-free and sensitive. It's definitely a mask to use if your goal is a dewy, hydrated color — and nothing less. Acne for 3Best or Severe DetoxingAztec Secret Indian Healing Clay AmazonNo Talk How mainstream has become this cult favorite soil, I recommend (or use) it will never stop. This is the only detoxing or smear-fighting mask you need yourself; It solves pretty much every problem and banishes pimples like nothing else. It's also insanely cheap, and a jar will last you forever. Mix something with Apple cider vinegar (it will be much more effective if you use it with water) and leave it until you feel your skin pulsed (if you know, you know). Some redness should be expected - it will quickly fade, leaving you with smooth, clear, deeply pure skin. 4 Best Dry or Dehydrated SkinAvène Eau Thermale Soothing Moisture Mask For AmazonIf Your Skin Is Stressed or Seriously Dehydrated, Look No Further Than This French Pharmacy Miracle Product. It doubles as a heavy duty moisturizer (you can leave it on as long as you want), so I always apply it before a flight (it's perfectly suited at less than 2 ounces from tsa, and goes a bit a long way). Since it is non-comedogenic and hypoallergenic, it is safe to use on sensitive skin, and the brand's signature thermal water from its namesake city, which is transmitted in the formula, helps to reduce inflammation and soothe irritation. Pro tip: Keep it in the fridge for an even more refreshing experience. Best Avène mask for red, irritated, or swollen SkinDermalogica Multi Vitamin Recovery Maswhile (above) is also wonderful for reducing redness and swelling, it's amazing to reach for the product when you want to repair the skin that has been severely damaged (sounds from things like sun, free radicals, or chemical peels). It uses a nutritious blend of antioxidant and nutrient-rich vitamins and botany to boost collagen production — which in turn increases elasticity — so your previously dry and tight complexion will feel healthy and hydrated. I use it when I'm hungover and my skin is looking particularly dull. The AmazonOne of Eve Lom Rescue Mask is the most widely beloved detoxing treatment on the market, Eve Lom's Rescue Mask is a game-changer for anyone looking to smooth out their complexion and reduce the appearance of enlarged pores. With a kaolin soil-based formula which naturally transmits with antibacterial honey , this cult-favorite mask soothes inflammation, gradually touches, and sees the skin fresh. is. Not cheap, but if you're looking to splurge on a legal product that you'll find a ton of use, that's it. My Beauty Diary Facial Mask Sheets Package Amazon! has tried pretty much every Asian beauty brand from there and come to the conclusion (with the help of Reddit's very passionate skin care community) that my beauty diary, by and large, makes the best sheet masks. This 10-piece bundle will only set you back \$15 and you'll have to try all their most popular therapies, including cult-favorite Imperial Bird's Nest and Royal Pearl Formulas. Most of these masks are for moisturizing, hydrating and revitalizing, but each one is made up of its own set of innovative ingredients (such as Mexican cactus and red wine) and has a different aroma. If the packets come fully loaded with serum, you'll have something left on after each use, and the soft fabric makes these masks easier to cut or tear to fit your specific face shape.
