Tell me more aborted animals are the cutest creatures around, but not all of them are lucky to have a loving house with caring owners. At the shelter, you take care of the less fortunate pets such as dogs, cats and even turtles to make them happy and make them feel loved and cared for no matter what. Grab these Kibble packages, take out the toys. Can you resist your urge to pet and hug all these cute animals when you look them in the eye? Can you find a new home so they can live happily after that? Animal Shelter is an amazing game that makes you the manager of a shelter. Your goal in this game is to take care of the animals under your care at the shelter and keep them happy by meeting their basic needs. If you keep them happy, they will be adopted and become the beloved pets of loving families. You can use your mouse to play the game. There are 4 different areas in your shelter. A cozy place for your dogs and puppies, a nice place for your purring cats and kittens, a place for your rodents and rabbits, and finally a place for your turtles. Each of these species has 3 main needs to look out for: health, fun and hunger. How well you take care of these needs affects the overall happiness of the animals. In the shop you can buy different types of food, toys and medicines. You need to do your daily tasks to keep your shelter running. When an animal's lucky meter turns red, your shelter will close, so try your best to keep these cute animals happy! Big eyes, cute paws and fluffy fur are what makes animals the best things in the world.
