It's a really fun game that I think everyone should try. I always play this game on road trips, or just when I'm super bored! It's not too hard, but it comes with a set of challenges. Every time you make a bottle to the finish line, you get the gems. You can use gems to open new bottles. This app doesn't need the internet to work, so you can continue to play it or at home. Me and my friends are playing this game and see who's getting the most gems and we'll also see who's getting the rarest of bottles! This game is for all ages, and it is super easy to download. Also, if you have a problem with the game and you leave out, the game developers fix it. One thing I would like to point out is that the game does not have ads. But don't worry, it's like 5 ads every day, and game developers have to make money. Speaking of money, this app is 100% FREE! Yes, FREE! It's always a plus. Somehow, if you are looking for a simple, simple, fun game that you can download and play to go, this is definitely a game for you! ☺ So I saw an ad for this game and decided to download it, now it will never get bored and it can not be so hard! Although I have some ideas to make even better gameplay, maybe add achievements such as jumping a ton of tvs like a bottle and the achievement would pop up like Couch Potato or something, another idea is the game as racing against friends and also the boss of the fights game would be awesome, for example, maybe a kid who wants water and is chasing a bottle, it would mean they should go quickly. Another idea is a certain level of titles and based off a certain thing, such as maybe something like Cleaning Chaos, where there would be a ton of vacuum cleaners, the rest is about you! - Awesomeboy000 Okay, let's start with the positives. 🍻🍻 (I think there are a lot of them) 1.) this is a great time killer and is my favorite app on my phone. 2.) is the motive! I've seen so many games that you should just play frantically. They alphabet something to work for, and that's what I expected when I downloaded this game. It is, however! New skins and levels! 3.) it's kind of like reliving if it was popular, which is fun! 4.) adds do not take the whole game! Voodoo has a problem with it, but this game is not! However, I can only give this game 4 stars because of the crazy amount of money in VIP costs. Five dollars a week doesn't sound so bad at first, but if you do math, it's 52 weeks a year. 52 x 5 = 260. \$260!!! 🤔🤔 Order! That?!!? I understand that this is how you make money, but please tone that price down. If/ if you do, my rating is bumped to 5/5. 🍻🍻. Thanks for reading!
