## Top wordpress themes for photographers

Looking for WordPress themes for photographers? A WordPress theme designed specifically for photographers can help you showcase your work, find more customers, and connect with other like-minded photographers. In this article, we have hand-picked some of the best WordPress themes for photographers that you can use on your photography website. By building a WordPress site for photographers first, you need to make sure you choose the right platform to build your website. Self-hosted WordPress.org is the best website builder for photographers. WordPress offers creative freedom with unlimited designs, thousands of apps, extensions, and integrations available to site owners. To get started, you'll need to sign up for a WordPress hosting account. It will be the home of your website on the Internet. You will also need a domain name that your users will put in their browsers to open your website (for example, wpbeginner.com or google.com). It is recommended to use Bluehost. They are one of the most popular web hosting companies in the world and an official WordPress hosting partner. After you sign up for a hosting account, you'll need to install WordPress. Follow the instructions in our guide on how to start a WordPress blog and you'll be up and running in a short time. After that, you need to choose a theme from our expert choices below. If you need help installing the theme on your site, check out our beginner's guide on how to install a WordPress theme. That said, let's take a look at some of WordPress's best photo themes. 1. Divi Divi is a popular WordPress premium theme and a definitive page builder. It comes with 100s of layout packages and a 1-click demo content importer that makes it easy to launch your photography website. It has a visual customizer, an online text editor, lots of design options, Google Fonts, and more. With global elements and styles, you can easily manage settings at the site level. Divi is beginner-friendly and easy to set up. Divi also has a custom theme options panel in your WordPress admin so you can add a custom logo and favicon to your site. It's a seo friendly theme to help your site position itself well in search engines. 2. Astra Astra is a lightweight WordPress multifunction theme. It comes with dozens of starting sites, including built-in demo layouts with content for photographers. The theme works seamlessly with drag page builders to create custom landing pages.
