Teaching strategies gold family app

MyTeachingStrategies™ Family is an app that helps build the important connection between school and home for applications that use digital resources from MyTeachingStrategies™ including GOLD®. Who can use this app: MyTeachingStrategies™ Family is for use by families with children enrolled in programs or schools that subscribe to GOLD® and/or Creative Curriculum® Digital Resources. This app will allow families to receive customized information about the learning that is taking place in their child's classroom. If the program or school also subscribes to Tadpoles®, families can use this app to share morning drop-off information with teachers and receive daily reports, messages, and photos. As a teacher, I'm very disappointed that I can't use the app as well. I must be logged into the website to view or send messages. I don't have time during the school day to keep logging into the website, so I miss messages from my parents. I'd much rather have push notifications sent to my phone via an app so I could quickly check them. If I want to send pictures to my parents, I have to take the picture, mail it to myself, download it to the computer, then upload it to the site. And I can only send one picture per message. It's far too time-consuming. I'd also like a stream where I can see a list of messages sent to the entire class. It is too time-consuming to check each child's list individually. If my district didn't make me use this app, I'd use ClassDojo. It's so much more user-friendly. ×Sort to abort CSS error ×Sort to abort CSS error
