When his daughter Alexandra decided to run a lemonade stand to help doctors find new treatments and eventually cure all cancers in children, including their own, Jay and his wife Liz supported Alex's mission at every turn. After cancer took Alex's life, they continued Alex's legacy of hope. Alexandra Alex Scott was born on January 18, 1996, in Connecticut, the second of four children. Shortly before his first birthday, Alex was diagnosed with neuroblastoma, a type of cancer in children. On her first birthday, doctors informed Alex's parents that if she beat cancer, it was doubtful that she would ever walk again. Just two weeks later, Alex slightly moved her leg at the request of her parents to kick. This was the first clue as to who would turn out to be a determined, courageous, confident and inspiring child with big dreams and great achievements. This award-winning book inspires thousands of people every year to help make the world a better place. This is a touching picture book story about Alex Scott. We rated it a solid four hearts.---Bob Spear-Heartland Reviews, June 2004 Children's Books on the Voting LIST VIEW LIST (12 BOOKS) Summary: Alex has a problem that is bigger than her: she's battling a particularly nasty disease. She wants to help other children who have this disease, too, so she comes up with a plan to make a difference. Alex decides to sell lemonade from the lemonade stand. Reader Enjoyment Factors: The story is inspiring, offering children insight into illness, compassion and making a difference with a simple story they can understand. Content awareness factors: Minor: you need to know in advance that this is a little girl who has died of cancer. You can pre-see through this book to prepare for your questions. Little Kid Reaction Although he has asked for a book several times, our prescho teacher has never sat through the whole story yet. Instead, s/he'll walk away about halfway. Parent's Story Reaction Isn't What You Expect... until the other side ends. Rhyming scheme and bright illustrations light theme, but it would be nice to have parents to know what's coming. Some discussion ideas would also be helpful, as not all parents will feel comfortable talking about cancer or death. Book Type: This book uses a rhyme to tell the true story of a little girl. Educational topics: The book offers families the opportunity to present some facts from life (e.g. death, terminal illness), as well as compassion and making changes. On the one hand: The illustrations are hideous and the text scans horribly. On the other hand: The book is the story of a little girl who died of cancer at the age of eight, and the text was written by her own parents. Do you overlook the flaws and award her 5 stars? Or are you a douche who gives him a low rating because, despite his noble goals, this is not actually a pleasant book in any way, shape or form?
