Without jailbreak/root access, Undeleter can only scan image apps. READ BELOW FOR INFORMATION ABOUT ROOT. The free app will restore all supported types of image files and all types of data, including SMS, call logs and WhatsApp or Viber conversations. It will also shred and safely remove. Unlock it to restore other supported file types, delete ads, and accessible background scans. ROOT/SUPERUSER PERMISSIONS require you to change the operating system on your device, visit this website for more information: caches may contain images that would otherwise not have been revealed: you can find photos that have been shared with you on social media, but you have never opened, or lower quality copies of images you have already deleted in the past. They can also contain images that have been pre-loaded by your browser or other devices on your device - even images of people you don't know. They can be filtered using Hide-to-end files. File Types: Scanning logs can detect files with any conceivable extension. Essentially these files are still on your own with their data in the allocated sectors. You can only scan the log on EXT4 and derivative file systems. Deep scanning heuristically scans and restores the following file types: BMP, JPEG/JPG, PNG, MNG, JNG, GIF, MP4, AVI, MKV, MP3, OGG, OGM, WAV, FLAC, AMR, MP4A, PDF, SXD, SXI, SXC, SXW, ODT, ODG, ODS, ODP, DOCX, XLSX, PPTX, SIP, JAR, APK. Data scanning is available for a select number of apps, including the system phone and SMS apps. The data will be restored in the form or HTML files for WhatsApp and Viber, as we cannot combine our directories. Shred/secure delete: Files found on free disk areas can be erased in bulk with Shred. You can also use the Share system menu to securely files directly through any other app, for example, by opening a gallery, selecting multiple images, images, Share button and choice securedelete.ACCOUNT - necessary for Google Drive and Dropbox uploadCALL / SMS - necessary for the data scanner application - remote SMS and calllogsLOCATION - for ads Security Master - Antivirus, VPN, AppLock, Booster APK Original CM Security updated to thewhole new security Master Antivirus-VPN (by CM, Cheetah Mobile) and redefined scalp Instead of providing all popular items, Security Master Antivirus-VPN (by CM) has submitted a synthetic diagnostics to detect your phone status and advise needsolution, including anti-virus, and anti-virus, and anti-virus. In addition, westrengthened privacy protection by creating a shield for allonline activities through SafeConnect VPN.★SafeConnect VPNSecurity Master Antivirus-VPN (by CM) is the easiest to use free VPN, proxy and unlock solution. In addition to vpn, SafeConnect VPN collaborates with Hotspot Shield Free VPNProxy and has been designed for everyone. SafeConnect VPN creates the same cyber environment as you need to block hackers. With VpnSafeConnect, you can use a virtual location to improve security and free access to your favorite content. MasterAntivirus-VPN security (CM) now protects not only your device, but also protects your online data stream to prevent electronic banking information, personal messages, and browsing history from leaking. (Will be available worldwide soon.) ★Intelectatic Diagnostics Our famous design of large buttons has been updated to a reasonable diagnosis of your most necessary solution. All solutions to keep your phone safe, clean and optimized like new including battery, Antivirus - Security Master Antivirus-VPN (CM) is equipped with a certified #1 antivirus engine. It detects 100% of viral programs by individual scanning and removes viruses and malware. It protect your phone as well as your personal information against malware, spyware and hackers. Junk Clean - The phone stores unwanted files automatically from time to time. Security Master Antivirus (by CM) detects this problem and frees up storage when needed. One faucet to clean the cache and junkfiles at once. The smartest way to clean and optimize your phone. Phone Boost, Saver battery, and Cooler processor - Your phone may not have better performance if it stays at high temperature or high memory use. Especially when charging the battery and playing games, it looks out the phone and battery and keeps your phone cool, fast, and saves more battery life.★Message SecurityWorry about others peeking your notification messages? SecurityMaster antivirus hides notifications, timely toprotect your privacy by security messages. It collects all chatnotifications into one and makes them easier to read manage.★AppLockSecurity Master Antivirus-VPN (by CM) protects the privacy of apps from AppLock. You can block anything you want to protect, such as like Wi-Fi switches, incoming calls, latest apps, settings, photos, WhatsApp or any apps you choose. In addition, notification previews can also be blocked, so no one can see which apps you're using or who you're communicating with. With Applock, you can block apps with a template, PIN, or fingerprint. Fingerprint lock is supported on Samsung or Androiddevices 6.0 and above, which are equipped with fingerprint sensors. You can also set up re-lock time to unlock the device on the screen, so there's no need to unlock every time you run the app. Selfie Attacker - Security Master Antivirus (by CM) protects privacy from spies. If someone tries to unlock your app with the wrong password, the photo of the attacker will be automatically taken, and the attacker's warning will be sent to you by email. This makes your phone safe and further tells you who the attacker is. Mask - Security Master Antivirus (by CM) masks the screen so that no one knows about you using AppLock when storing your privacy and privacy is safe. You can protect your child without the knowledge of your parents, partner or children. Theme - You can choose the style of the lock screen from hundreds of AppLock themes or customize with your photos. Color Status Bar 0.7.7 APK App status bar decorations. Decorate the desired colors and shapes. A new world is coming. Support: Color mixing and changingposition as a central watch. Show the percentage of battery. The update continues! Thank you. You.
