## Snowboarding the fourth phase switch

This app is only available in the App Store for iPhone and iPad. Welcome to Snowboarding The fourth stage. Shred the mountains to earn the respect of legendary professional snowboarders on your journey to become the best. Snowboarding The fourth stage redefines the snowboard genre on mobile just as The Art of Flight did for action sports movies. This is your chance to live the dream while you stomp tricks, collect the biggest gear, and become a member of the fourth stage crew. Download now to shred with legends and ride epic terrain in snowboarding adventures for life. BATTLE OF THE BOARDS Come and compete with other players to get the highest score on your favorite slopes. The highest score takes home great rewards and glory for being king of the hill. See how your high scores stack up against your friends and the rest of the world. SHRED THE MOUNTAINS Ride like a pro. Recreate your favorite tricks through intuitive controls designed for touchscreens. Stomp your tricks in the backcountry and explore epic lines down insane mountainsides. BUILD THE PERFECT BASECAMP Collect and upgrade the latest drones, snowmobiles, snowcades and even helicopters. Build your basecamp for the world's snowboard cinematic dominance. EPIC TERRAIN FOR POWDER HUNGRY Start in the world famous British Columbian mountains, you'll fall to the waist deep powder and cut your way through epic missions. After proving your skills you move on to Jackson Hole and then Alaska to ride sick lines and secure your place in the upcoming movie. COLLECT SICK GEAR Check in everyday life to pick up drone packages filled with equipment. Compete in online competitions and challenges to earn special packages and rare gear. LOOK GOOD, ride hard! Introduce your rider with new outfits and boards. In Snowboarding The fourth stage, all your movements can be captured for playback and shared with world. BE Part of the fourth stage, when you catch the attention of snowboard legends, increase your equipment to keep up with the crew. Keep riding to impress the squad and earn your spot in front of the camera! By downloading this application, you agree to our terms and conditions and privacy policy. Thanks for riding with us! Honestly, it's just addictive. I went to Jackson Hole and heard about Travis Rice. I examined him and found this game. I then picked it up and played it in the flight home until now. AND IT'S AMAZING. When you first start playing, you think it's cheesy, too hard, and boring. But stick to it, and you'll soon think differently. The levels are amazing, features and events are well planned and nothing is impossible - just very difficult. I am completely and shamelessly addicted to it. I don't live Texas, so it's the most snowboarding I do all year and reminds me of my trips to Jackson Hole as well. All about the best game you can buy right now. This app is really epic, it's such a realistic looking app, I mean the powder and the cutout is incredible. Being a snowboarder myself this app is just amazing, my friends, to snowboard with me play it too, we just think it's fun to be able to do tricks that no one thought was possible 10 years ago... right there on our phones. Overall great app, I encourage anyone who looks at this app to get it as soon as possible!!! 🙌🏻 First off this app is great and I've been playing it for a match three weeks. I've seen some errors, such as if you mess up a mission and you want to restart you can press the reset button, but then you have to go through the whole scene of the mountain, it gets a little old after time maybe when you reset offer a tips slide or something. Also sometimes I'll get my first two tricks and stomp them easily I feel like too easy, so the rest of the tricks I'll mess up far, I don't know if it's the game or me. But over all the game is great it's super fun also play there's no need to do in app purchases I bought some but it's not a need. Great app tho!! The developer, Red Bull, has not provided information about its privacy practices and data management practices to Apple. For more information, see the developer's privacy policy. The developer must provide privacy information when they submit their next app update. Developer Website App Support Privacy Policy Had I not played other snowboarding titles like Steep and Snowboard SuperJam, I probably would have enjoyed this more. But by comparison, it's just not going to fall. This is not a terrible snowboarding game; it's just more lukewarm than expected. If you a fan of the titles I have mentioned or other classics like 1080, you are better off sticking with them. All this publication reviews Read the full review LIVE THE DREAM. LIVE TO RIDE. Snowboarding The next phase brings snowboarding to Change™ for the first time! Stomp tricks, play against your friends, and make the dream of becoming the greatest boarder of all time come true. BATTLE THE BOARDS! Challenge your friends with split-screen multiplayer. A Nintendo Switch Online membership (sold separately) is required to back up Save Data Cloud. ©2018 Red Bull / ©2018 Session Games Inc. At one point, extreme sports games were a dime a dozen. Today they are a much more rare breed. Thus, it's no wonder why Snowboarding: The Next Phase is the first (and so far only) snowboarding game on the Switch and the console is almost two years old. Due to the fact that there is such a void, I was immediately fascinated by this game announcement. Carrying a subtitle like The Next Phase suggests that this should mark a leap beyond the levels of the past. Unfortunately, that is not the case at all. In fact, Snowboarding: The Next Phase is just about the most simplistic snowboard title I've played to date. While the game doesn't have a large number of tracks scattered across various real-world mountain ranges like Alaska, Japan and Russia, there's not as much variety as I expected. As you play through your career, you'll tackle three missions per each of the levels scattered across each zone. There are three levels of missions, Bronze, Silver and Gold, and when you complete one level, the next one unlocks. The number of missions you complete is also counted in unlocking the next zone. With there being 11 zones in total, it quickly became a slog to try to complete all the different missions. The main reason I felt this is that the missions become super repetitive very quickly. They are all just a small variation of the same: do X trick for X number of times, collect X amount find the special item, etc. As bland as the mission variety is the environments themselves. Although the game contains so many different locations, the themes don't stand apart so much. The course design is also surprisingly lacking. There are no set pieces like caves and log cabins, or interactive points like paint rails and half pipes. There are basically two designs: a narrow road and an open mountain face with many hills and ramps. Seeing that you have to keep backtracking to previous courses to complete enough missions to progress, the bland design of it all gets everything to mesh together. Prosaic powder What is supposed to be the most exciting part of the game is also rather lacking: trick system and (missing) sense of speed. Don't jump in expecting to pull off wild maneuvers like in SSX days. Instead, snowboarding: The next phase takes a much simpler approach. Although it's a little satisfying to link tricks together, you only end up doing a series of flips, spins and grabs. There are special moments when slow-mo kicks in, and while this admittedly looks cool, it's still not nearly as flashy and engaging as the aforementioned snowboarding titles of the past. However, the game is extremely trigger happy when it comes to photos as it will save screenshots to your Switch album automatically after passing through special photo-ops. As you might imagine, it got very old after a short time. Another gripe I have with this game is its performance. Although it usually maintains a smooth 60FPS, there are some courses that are locked to 30 FPS (and so are the menus). Given how simple cartoonish art style is, it's surprising. Had I not played other snowboard titles like Steep and Snowboard SuperJam, I probably would have enjoyed this more. But by comparison, it's just not going to fall. This is not a terrible snowboarding game; it's just more lukewarm than expected. If you're a fan of the titles I've mentioned or other classics like 1080, you're better off sticking with them.
