Strikemaster lithium 40v 10

Built from the ground with features that make a difference on ice, the new StrikeMaster® Lithium 40v 10-inch ice auger combines decades of ice snowflake experience with leading design and energy. This auger will move through ice hole after hole. This is a 40-volt, 5-hour lithium-ion battery powered an electric DC brushless motor for reliable, constant speed and torque. Planetary gear provides light durability and high power density for unsurpassed performance. The innovative high-performance cutting through the legendary StrikeMaster® Lazer™ provide the fastest cutting edge, period. Customized impact-resistant handles with ergonomically placed opposite power switches and built-in LED lights. Front/rear control moves forward for cutting and vice versa to rinse slush from the hole. The 2-amp battery charging station charges the battery back to full charge in 2-1/2 hours. Features: Electric DC brushless motor. Planetary gear system. Gear ratio 15.9:1. Power button with deadman safety switch. Back and forth. Built-in LED lights. Shock-resistant incandescent handles. 2 serrated stainless steel lasers™ blades. 40-volt, 5-hour lithium ion battery. An internal battery management system provides battery life. 4 LED battery status indicator. 2-amp charging station (recharges the battery for 2-1/2 hours). Batteries and charger included. 70 holes on a single charge. Limited 2-year warranty to the manufacturer of motor, battery and charger. Strikemaster 1040v 40v Lithium-Electric Ice Auger Strikemaster 1040v Lithium-Electric Ice AugerPlease request this item cannot deliver next Day Air or 2nd Day Air due to UPS battery restrictions. Built from the ground with features that make a difference on the ice, the new StrikeMaster® Lithium 40v combines decades of experience with ice with a smooth with lead design and energy. This auger will move through ice hole after hole. This is a 40-volt, 5-hour lithium-ion battery powered an electric DC brushless motor for reliable, constant speed and torque. Planetary gear provides light durability and high power density for unsurpassed performance. The innovative high-performance cutting through the legendary StrikeMaster® Lazer™ provide the fastest cutting edge, period. Customized impact-resistant handles with ergonomically placed opposite power switches and built-in LED lights. Front/rear control moves forward for cutting and vice versa to rinse slush from the hole. The 2-amp battery charging station charges the battery back to full charge in 2-1/2 hours. POWERHEAD/MOTOR:•Electric brushless motor. • gear system•15.9:1 gear ratio. • Deadman engine safety switch power button. •Back and forth. • Built-in LED lights. • Thread resistance resistance Jagged stainless steel lasers™. BATTERY:•40-volt, 5-amp-amp lithium ion battery. •Internal battery management system provides battery life•4 LED battery status indicator. • 2-amp charging station (charges the battery in 2-1/2 hours).•Internal rechargeable battery is included.
